The background features a vibrant, stylized illustration of various cartoon animals. In the foreground, there's a purple cat-like creature with large, expressive eyes and a small tuft of hair. Next to it is a green, furry creature with a crown-like headpiece and wide, surprised eyes. To the right, a larger, light-colored animal with large, round eyes and a gentle expression is visible. The background is filled with other colorful, stylized animal heads and patterns in shades of purple, blue, and green.

This zine was made in tribute
to my interest in LPS, Featuring
some pets from my childhood,
ones from my LPStube days, and
recent (as of making) additions
